PROFESSIONAL EXPERIENCE

MERCADO LIBRE Software Engineer

Argentina
February 2026 - Present

- Developing and maintaining Java microservices on high-availability architectures using MySQL HA, HikariCP, and JDBC.
- Implementing resilience patterns, including circuit breakers, graceful shutdown, and connection pooling tuning.
- Instrumenting traces and metrics using the OpenTelemetry standard, with visualization and monitoring through Datadog, Grafana, and Kibana.
- Reducing technical debt through refactoring and maintainability improvements.
- Managing event/stream processing.
- Addressing security vulnerabilities, including endpoint hardening and IDOR vulnerabilities.
- Using the company's internal CI/CD platform for continuous microservices deployment.

SHIFTA Software Engineer

Argentina
April 2024 - January 2026

- Developing and implementing APIs with a microservices architecture in .NET.
- Designing and creating SQL databases.
- Collaborating on DevOps tasks with Azure.
- Scheduling jobs with Quartz.
- Participating in front-end development tasks using React and NextJs.
- Developing clean and well-covered unit tests with XUnit and Moq.

Juan Toselli Int. Tours Software Developer

Cordoba, Argentina
February 2022 - March 2024

- Leading projects for the integration of supplier Web Services (SOAP/Rest) into the company's system.
- Creating and maintaining APIs within a microservices architecture in .NET
- Designing and creating SQL databases.
- Crafting scripts for scheduled tasks using JavaScript and MongoDB.
- Implementing payment platforms, e.g. Binance
- Collaborating on front-end projects using Angular.

GLOBANT QA Internship

Cordoba, Argentina
September 2019 - October 2019

Completed a school-sponsored internship supporting the QA and Testing team by performing various simple tasks to assist with their daily operations.
